Optimal Health and Wellness

Through Advanced Nutritional
Supplementation

About General Drugs

General Drugs was established in 2020 with the joint vision of pharmacists and physicians to offer consumers in the health sector products with pure and natural ingredients. Our first products, developed with professional experience and knowledge, were launched in 2020, setting the foundation for our innovation and leadership in the industry.

Over time, we have continuously expanded our product range and market share, adhering to our philosophy of 'Healthy Lives.' Today, we offer nearly 50 different product varieties to our consumers. As a company aiming to support human health, we embrace high-quality and natural options in the products we deliver to the end consumer.

In each of our products, we avoid any components that could harm human health, use patented raw materials, and manage our production processes in accordance with halal standards. By keeping up with advancing technology, we continually improve our production processes and, inspired by nature, develop innovative and original products to contribute to your health.

Without compromising our commitment to quality, we offer only those products we trust to you, our valued consumers. We express our gratitude to those who have been with us from the past to the present and take pride in accompanying you on your health journey.

Our mission at General Drugs is to continue producing pioneering products in the sector and to work towards maintaining your health at the highest level. We promise to deliver 'Healthy Lives'...

General Drugs

"At the forefront of nutritional science, our vitamin supplements are designed to deliver unparalleled health benefits. Each product is the result of extensive research and innovation, ensuring you receive the highest level of nutritional support. Our formulations are rigorously tested for purity and potency, providing a trusted foundation for a healthier lifestyle."

BRUGGE VITAMIN C

GD-0001 - 30T /60T /90T

This powerful supplement contains 1000mg of Vitamin C per serving. Vitamin C strengthens the immune system, supports skin health, and helps cells combat oxidative stress. When taken daily, it contributes to overall health and boosts energy levels. This supplement is an ideal choice for those with busy lifestyles, seeking support during seasonal transitions, and striving to maintain a healthy lifestyle.

"Our vitamin supplements are designed not just to supplement your diet, but to elevate your health to its peak potential. With each ingredient selected for its proven benefits, we create blends that work in synergy to enhance absorption and effectiveness. We are dedicated to transparency and education, ensuring that you are fully informed about the benefits and origins of our products."

D3K2 ORAL SPRAY

GD-0025-10 ML /20 ML /50 ML

It is recommended for children to consume daily 1 oral spray or 3 drops.

Vitamin D3 and K2 work synergistically to support various aspects of health. Vitamin D3, a potent form of Vitamin D, is essential for calcium absorption in the bones and maintaining a healthy immune system. Vitamin K2, on the other hand, aids in directing calcium to the bones and teeth where it is needed, while preventing its accumulation in arteries and soft tissues. This combination is particularly important for bone health and cardiovascular wellness. Together, D3 and K2 help ensure that calcium is utilized effectively in the body, promoting stronger bones and a healthier heart.

BRUGGE VITAMIN D3 400 IU

GD-0026- 10 ML/20 ML /50 ML

Vitamin D plays a crucial role in the health and development of children. It is essential for the proper growth and formation of bones, as well as the absorption of calcium, vital for strong and healthy bones. Additionally, Vitamin D supports the immune system, helping children fight off infections and diseases. Since children's bodies are rapidly growing and developing, adequate Vitamin D intake is paramount. Sun exposure is a natural source, but due to indoor lifestyles and geographical factors, supplementation can be necessary to ensure sufficient levels for optimal childhood health.

20 - 30 - 50 ML

Amount Per Serving	*NRV
Vitamin D3 400 iu	%200

BRUGGE VITAMIN D3 1000 IU

GD-0027- 10 ML/20 ML /50 ML

Vitamin D is essential for adults, playing a significant role in overall health and well-being. It is crucial for the maintenance of bone health, helping to prevent the loss of bone density and conditions like osteoporosis. Moreover, Vitamin D is vital for muscle function, immune system support, and even has a role in regulating mood and mental health. Adults often require Vitamin D supplementation due to limited sun exposure and dietary intake. Ensuring adequate Vitamin D levels is key to maintaining good health, reducing the risk of chronic diseases, and supporting mental and physical wellness in adult life.

20 - 30 - 50 ML

Amount Per Serving	*NRV
Vitamin D3 1000 iu	%500

General Drugs

"Delivering more than just nutrients, our dietary supplements are a promise of better health and increased vitality. By focusing on holistic health, our products are formulated to address the complex interplay of body systems, ensuring comprehensive support. We take pride in our ethical sourcing and manufacturing practices, which reflect our commitment to both the consumer and the environment."

BRUGGE PROBIOTICS

GD-0028- 10S /20S /30S

Probiotic supplements are increasingly recognized for their importance in children's health. These supplements contain beneficial bacteria that are essential for a healthy gut microbiome, which plays a vital role in digestion, immune function, and even mental health. For children, probiotics can help in managing digestive issues like constipation, diarrhea, and irritable bowel syndrome. They also strengthen the immune system, reducing the frequency and severity of infections like the common cold. Additionally, emerging research suggests a link between a healthy gut and improved mood and cognitive function.

5 - 10 Sachet

COLIBB

GD-0029 - 20 ML /40 ML /60 ML

Lactase enzyme supplements are a valuable aid for individuals with lactose intolerance, a condition where the body lacks sufficient lactase enzymes to break down lactose found in dairy products. These supplements contain the lactase enzyme, which helps in digesting lactose, thus alleviating symptoms like bloating, gas, and diarrhea that are typically associated with lactose intolerance. By taking these supplements before consuming dairy, individuals can enjoy dairy products without discomfort.

BRUGGE CALMOTUSIN

GD-0031-100ML

Natural cough syrup is an alternative remedy often made from a blend of herbal ingredients known for their soothing and healing properties. Ingredients like honey, ginger, lemon, and various herbs like thyme, echinacea, and elderberry are common. These natural components work together to alleviate cough, soothe irritated throats, and boost the immune system. Honey, especially, is renowned for its cough-suppressing and antimicrobial qualities. Such syrups are a popular choice for those seeking a more holistic approach to treat coughs and colds, with the added benefit of being free from synthetic chemicals and preservatives commonly found in conventional cough syrups.

MADELAKE

GD-0035-30 ML/50 ML/100 ML

Spot cream is specifically formulated to target and reduce Leaf Extract. skin blemishes such as dark spots, scars, and hyperpigmentation. Infused with ingredients like vitamin C, retinol, or glycolic acid, it works to lighten these areas, promoting an even skin tone and a clearer complexion

30-50-100 ml

SHAMPOO

GD-0036-300 ML

Biotin and collagen shampoo is designed to strengthen and revitalize hair. Biotin, a B-vitamin, helps in improving hair health, promoting thickness and growth, while collagen, a protein, adds elasticity and hydration. This combination nourishes the scalp and hair, resulting in fuller, healthier-looking locks.

300 ml

HAIR CONDITIONER

GD-0036-300 ML

Biotin and collagen conditioner is a nourishing hair care product that aims to enhance hair strength and texture. Biotin, known for promoting hair growth and thickness, works in tandem with collagen, which provides elasticity and moisture. This combination helps to restore vitality, leaving hair silky, strong, and voluminous

300 ml

"Our vitamin supplements are more than just a daily routine; they are a foundation for a life of health and balance. We believe in the power of nutrition to transform lives, and our products are developed to unlock that potential. With a focus on bioactive compounds, we ensure that every dose brings you closer to your wellness goals."

BRUGGE STRETCH MARKS CREAM

GD-0038-250 ML

Stretch mark creams contain ingredients that enhance skin elasticity and provide moisture, including hyaluronic acid, squalane, vitamin E, aloe vera, and cocoa butter. These components nourish and soften the skin, helping to reduce the appearance of existing stretch marks and prevent the formation of new ones.

Consistent application is crucial for effectiveness. Ideally, stretch mark cream should be applied to clean, dry skin twice daily with gentle massage. This routine aids in better absorption of the product by the skin and enhances the efficacy of the active ingredients.

250 mL

CAPSICUM CREAM

GD-0039 - 50G

This cream is a potent blend of capsiicum, menthol, camphor, and methyl salicylate, designed for topical pain relief. Capsicum provides a warming effect, menthol offers cooling relief, camphor aids in congestion and muscle pain, and methyl salicylate, a compound related to aspirin, helps reduce inflammation. It's ideal for soothing sore muscles, joint pain, and arthritis related discomfort.

50G

VAPORASING CREAM

GD-0040-50G

Menthol and camphor vaporizing cream is a topical remedy known for its soothing properties. The menthol provides a cooling sensation, while camphor helps in relieving congestion and muscle aches. It's often used to alleviate symptoms of colds, such as coughs and stuffy nose, by applying it to the chest and throat area.
